

CISM Exam Preparation – Review Course

Course Description

The CISM review course is an intensive program designed by ISACA Karachi Chapter to prepare professionals for the Certified Information Security Manager (CISM) exam. The course focuses on the key points covered in the **ISACA CISM Review Manual, 15th Edition** and includes class lectures, group discussions, exam practice and answer discussion.

Prerequisites

There are no prerequisite requirements for taking the CISM Exam Preparation Course or the CISM exam; however, in order to apply for CISM certification, the candidate must meet the necessary experience requirements as determined by ISACA.

Course Objectives

Upon completion of the CISM Exam preparation course, participants will be prepared with the following for success on the exam:

- Follow the format and structure of the CISM certification exam
- Identify the various topics and technical areas covered by the exam
- Implement strategies, tips and techniques for taking and passing the exam
- Apply key learning to the practice questions

Course Content

The CISM Exam Preparation Course comprises the following sections, covering the following topics:

- General information regarding the exam
- **Domain 1** - Information Security Governance
- **Domain 2** - Information Risk Management and Compliance
- **Domain 3** - Information Security Program Development and Management
- **Domain 4** - Incident Management and Response
- Exam Practice

Each domain will be covered with worth of information presented via lecture, group discussion and practice questions.

Who Should Attend

The course would be useful for CISM Exam Candidates, as well as practicing professionals working in Information Security, Cyber Security, Information Technology management, Governance, IS Auditor etc.
